

America's OB/GYN Board Review Course, Inc.

**November 16th – 20th, 2011
Greenville, SC**

Krishna Das, MD, FACOG, Course Director

- **ABC's hand-picked faculty will be introduced at our course.**
Appropriate faculty disclosures will be made in person at the conference

The planners of this activity have disclosed no financial relationship relevant to the content to be presented.

Course Objectives

At the end of this presentation, the participant will be able to:

- Review the latest information within specific topics relating to obstetrics, gynecology and its subspecialties in order to receive board certification and/or continued maintenance of certification.
- Use the evidence-based information and multiple learning tools presented in the course to evaluate and formulate changes to their current practice patterns (treatment, management and/or promotion of women's health)
- Recognize and employ the current practice guidelines developed by ACOG, other national medical organizations and government institutions regarding obstetrics, gynecology and its multiple subspecialty areas (maternal fetal medicine, urogynecology, gynecologic oncology, genetics, reproductive endocrinology and infertility) in order to effectively treat, manage and promote women's health.
- Evaluate clinical problems in obstetrics and gynecology presented in interactive, case-based scenarios and demonstrate an understanding of appropriate clinical management.
